## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.
2. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.
3. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.
4. Group I, claim(s) 1 and 29 are drawn to a system.
5. Group II, claim(s) 2-13 and 27 are drawn to security elements.
6. Group III, claim(s) 14-25 and 28 are drawn to thin sheet material.
7. Group IV, claim (s) 26 and 30 are drawn to valuable documents.
8. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common technical feature in all groups is the coating. This element cannot be a special technical feature under PCT Rule 13.2 because this element is shown in the prior art. Gerhard (GB 2033839A) teaches a security card comprising locally light-transmitting support and a signature receiving spark burning recording member 12 made of a paper base 14, a colored light transmitting lacquer 15 (coating) and a top coat of vacuum-deposited metal 16 (coating). Gerhard discloses "In using the present invention the aluminum...and hence if the card 10 is placed upon a dark surface a black signature is clearly seen against the aluminum background. In addition...light source." (page 2 lines 115-13 to

Art Unit: 1794

page 3 lines 1-6). This disclosure reads on the coating which by means of the color effect produced by means of it situation permits an unambiguous assignment...to a defied property.

9. Due to the complexity involved in the restriction requirement, a telephone call was not made to Applicant's attorney/agent to request an oral election to the above restriction requirement.

10. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species **or** invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

11. The election of an invention **or** species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

12. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
